

The MIDIR project concluded its activities with a **Final Event**, which took place on **May 15th 2008** in Villa Piccolomini, Central Office of the Mediterranean House of the Regions in **Rome**.

The **event** presented the main results of the MIDIR project and showed that the innovative MIDIR methodology can be applied to any risk scenario, cultural environment, community and country. The main objective was to inspire participants to apply and use the MIDIR Approach. The conference brought together an audience from Public Administrations across Europe together with experts and academics in the field of governance.

The MIDIR final event brought together **high-qualified EU, national and regional institutional audience** from Public Administrations across Europe together with experts and academics in the field of risk governance. During the event, the **active involvement** of the audience in the discussion was of particular value in order to transfer as much as possible the benefits of the MIDIR methodology.

The event was organised by LAit S.p.A., with support of T6 Ecosystems srl.
